

1948—2013

Since its launch in 1948 the NHS has grown to become the world's largest publicly funded health service. It is also one of the most admired, comprehensive, efficient and inclusive. The NHS was born out of a long-held ideal that good healthcare should be available to all, regardless of wealth, a principle that remains at its core. This was evidenced in the report below.

<http://www.gponline.com/News/article/1083812/nhs-among-cost-effective-health-systems-world/>

Every Government since 1948 has invested our taxes into improving and protecting the NHS to secure the health and well-being of our families and communities.

They promised to
protect the NHS

Until Now!

They promised that it would
never be privatised

They lied to you and your family

Why did they lie?

Because this Government wants to sell off **OUR** NHS to all their friends in the private sector who will profit from the charges they make when our children, friends and relatives are at their most vulnerable.

Can you afford to pay ?

No you can't because you belong to the majority of people who don't earn or acquire vast fortunes. Mr Cameron and his friends don't have to worry as they are wealthy and no doubt will become wealthier in the future.

OUR NHS IS IN DANGER—PLEASE HELP SAVE IT.

We are campaigning locally and are supported nationally by 38 Degrees.
